

CONVEYOR OPTIMISATION SPECIALISTS

SMARTER SYSTEMS. BETTER PERFORMANCE.
REAL RESULTS.

At **Belt Wise**, we turn every metre of conveyor into a performance advantage. Our optimisation experts work side-by-side with your team on site - combining hard-earned field experience, sharp engineering judgement, and advanced AI diagnostics to unlock real, measurable gains.

We don't do desk-bound consulting. We get boots on the ground, hands on the system, and outcomes on the board. Less downtime. More throughput. Stronger reliability. That's what we deliver.

From iron ore in the Pilbara to grain in NSW and aggregate in Southeast Asia - we understand the stakes, and we engineer conveyor systems that deliver under pressure.

BUILT TO OPTIMISE

Independent Advice

No brand bias. No hidden agendas. Just expert recommendations tailored to your site and your goals.

AI Meets Experience

We fuse machine learning with real-world know-how to find problems faster - and fix them before they cost you.

No Result. No Fee.

If we don't improve your conveyor, you don't pay. Simple as that.

DELIVERING RESULTS ACROSS APAC

Mining • Ports • Quarries • Tunnels • Manufacturing

From shutdowns to system upgrades, audits to optimisation - we bring the people, the tools, and the technical firepower to lift performance across your entire conveyor network.

WHAT WE DO

We deliver hands-on, performance-driven consulting
for the toughest conveyor challenges

OUR SERVICES INCLUDE

Independent QA/QC

Splice checks, rubber lining audits, and install oversight - so you know the job's done right, every time.

Feasibility & Design Reviews

Straight-up advice on what works, what won't, and where your dollar's best spent - before the first bolt goes in.

CapEx & OpEx Support

From the pit to the boardroom, we help your teams plan smarter, spend better, and deliver improvements that stick.

System Audits & Asset Management

We don't just inspect - we interrogate. With AI-driven insights and expert eyes on the ground, we spot issues early and keep your conveyor moving.

Throughput Optimisation

We mine your data for practical wins - more tonnes, less carryback, and lower cost per shift.

Procurement Advisory

Smarter specs. Sharper sourcing. No waste. We make every conveyor dollar go further.

WHY BELT WISE?

Decades in the field,
not just behind a desk

Built-in AI smarts with
boots-on-ground experience

Trusted by tier-one
operators across APAC

No billable hours - just
results that earn their keep

LET'S OPTIMISE YOUR CONVEYOR

Unlock more throughput, fewer breakdowns,
and smarter performance.
